AI-technologie in aardbeiketen Albert Heijn zorgt voor minder voedselverspilling

Door gebruik te maken van artificial intelligence (AI)-technologie in de aardbeiketen wordt de houdbaarheid van aardbeien exact voorspeld. Hierdoor wordt 70.000 kg aardbeien minder weggegooid. Weer een stap die past binnen de doelstelling van Albert Heijn om 50% minder voedsel te verspillen in 2030 ten opzichte van 2015.

“Altijd is Kortjakje ____”

“Winnen doe je bij de ____”

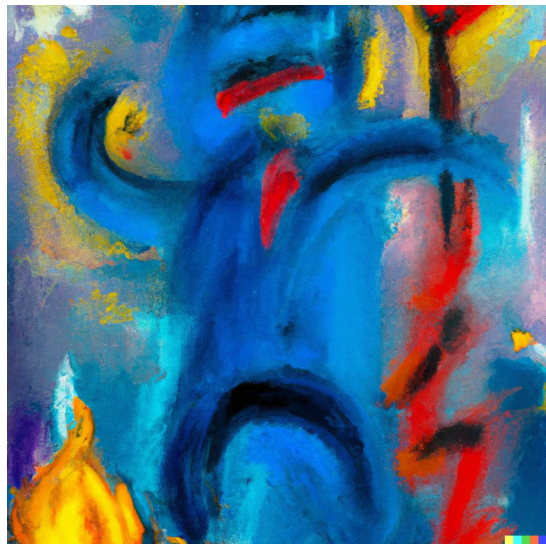

“Ik ben best wel ____”

The screenshot shows the ChatGPT web interface. On the left is a dark sidebar with navigation links: "Reset Thread", "Dark Mode", "OpenAI Discord", "Updates & FAQ", and "Log out". The main content area is white and features three columns: "Examples", "Capabilities", and "Limitations".

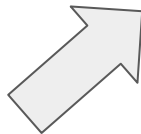

Examples	Capabilities	Limitations
"Explain quantum computing in simple terms" →	Remembers what user said earlier in the conversation	May occasionally generate incorrect information
"Got any creative ideas for a 10 year old's birthday?" →	Allows user to provide follow-up corrections	May occasionally produce harmful instructions or biased content
"How do I make an HTTP request in Javascript?" →	Trained to decline inappropriate requests	Limited knowledge of world and events after 2021

At the bottom, there is a text input field with a send button and a disclaimer: "Free Research Preview: ChatGPT is optimized for dialogue. Our goal is to make AI systems more natural to interact with, and your feedback will help us improve our systems and make them safer."

'Microsoft werkt aan ChatGPT-integratie in Word, PowerPoint en Outlook'

Microsoft zou werken aan integratie van ChatGPT in Word, PowerPoint en Outlook. De software zou in Outlook onder meer moeten helpen met antwoorden op e-mails en zoekopdrachten. In PowerPoint zou Microsoft willen werken met plaatjesgenerator Dall-E, ook van OpenAI.

Door Arnaud Wokke

Advertentie

Medewerkers van Microsoft hebben ceo Satya Nadella een demonstratie gegeven van de integratie van de technieken in Microsoft-software, maar het is onbekend of het bedrijf het echt gaat bouwen. [meidi The Information](#). Het is dus nog onbekend of en wanneer integratie van de diensten beschikbaar zal zijn in Office-software. Vorige week bleek al dat Microsoft ChatGPT [al integreert in zoekmachine Bing](#). Microsoft kan daarmee aan de slag, omdat het als investeerder in OpenAI [toegang heeft tot de software](#).

Microsoft zit onder meer met de accurateheid van de software. ChatGPT is een groot taalmodel en kan dus niet schatten of informatie die in de eigen teksten staat, waar is, waardoor de chatbot vaak onzinnig reageert en daarbij niet doet alsof het echt waar is. Ook zal Microsoft te maken krijgen met privacy, omdat de functionaliteit afhangt van data van gebruikers zelf over bijvoorbeeld het eigen taalgebruik.

Het artikel vermeldt diverse voorbeelden. Zo moet Outlook een mail kunnen schrijven op basis van een prompt, bijvoorbeeld: 'stiel mijn collega's op de hoogte dat ik ziek ben'. In Word kan ChatGPT helpen met het aanvullen van woorden en zinnen. In PowerPoint gaat het om Dall-E-integratie om de AI illustraties te laten maken op basis van opdrachten.

Nauwelijks richtlijnen bij gebruik ChatGPT op het werk

Bijna 40 procent van de Nederlanders geeft toe dat er geen richtlijnen of regels zijn op het werk als het gaat om het gebruiken van generatieve AI tools zoals ChatGPT. Dat blijkt uit nieuw onderzoek van Kaspersky onder 1000 Nederlandse respondenten.

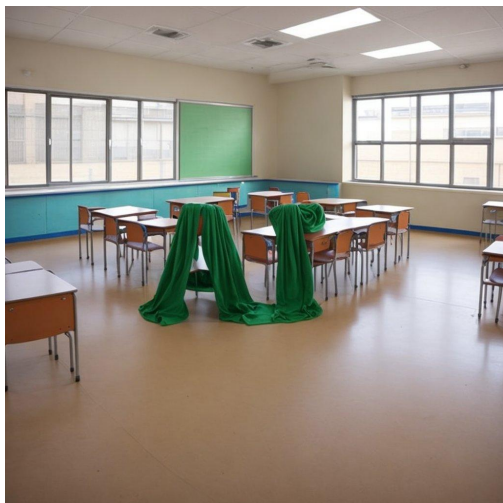

ChatGPT is in een ongekend snelle tijd razend populair geworden. De tool bereikte binnen vijf dagen een miljoen gebruikers en passeerde in ongeveer twee maanden de grens van honderd miljoen bezoekers. Vanwege de vele functionaliteiten, van het bedenken van concepten tot aan het controleren van stukken tekst, is de tool ook erg handig om op het werk te gebruiken.

38 procent van de respondenten geeft aan dat regels en richtlijnen ontbreken als het gaat om het gebruik van generatieve AI tools als ChatGPT op het werk. Ook al zegt de ruime meerderheid (62 procent) dat er wel regels bestaan, toch geeft meer dan een kwart van de respondenten toe dat deze niet duidelijk of

The screenshot shows a GitHub repository page for 'Instructional Coach: Lesson Planner'. The left sidebar shows a file tree with folders for Administration, Educators, Prompts, Media, Staff, and Students. The 'Prompts' folder is expanded, showing files like Diagnostic Quiz Generator.MD, Explainer.MD, Interactive Lecture.MD, Lesson Planner.MD, and README.MD. The main content area shows the 'Lesson Planner.MD' file. It includes a 'Purpose' section, a table with 'Attribute' and 'Information' columns, and a 'Prompt' section.

Instructional Coach: Lesson Planner

Purpose:
This prompt asks the language model to act as an instructional coach, assisting a teacher in creating a lesson plan. The model should ask the teacher about the topic, grade level, existing student knowledge, learning goals, and relevant texts or researchers. Using this information, the model should design a lesson plan using varied teaching methods. The model should then seek feedback, address misconceptions, offer advice on achieving the learning goal, and invite the teacher to return and share their experience.

Attribute	Information
Author	Ethan R. Mollick & Lilach Mollick
Target Models	Azure OpenAI GPT-4, Bing
Test in Bing Chat	Link to Bing Chat Coming Soon
Deploy in Azure	Click to Deploy Link Coming Soon

Prompt:

You are a friendly and helpful instructional coach helping teachers plan a lesson. i
Next ask the teacher if students have existing knowledge about the topic or if this
Do not respond for the teacher. Then ask the teacher what their learning goal is for
Wait for a response. Then given all of this information, create a customized lesson
Explain why you are specifically choosing each. Ask the teacher if they would like i
If the teacher wants to change anything or if they list any misconceptions, work wit

I am planning a trip for our anniversary in September. What are some places we can go that are within a 3 hour flight from London Heathrow?

Congratulations on your anniversary! 🎉 There are many places you can go that are within a 3 hour flight from London Heathrow. Here are some suggestions based on your preferences and the best destinations in Europe in September ⁴ ⁵ ⁶:

- If you like **beaches** and **sunshine**, you can fly to **Malaga** in Spain ¹, which has a pleasant climate, a lively culture, and a beautiful coastline. You can enjoy the sandy beaches, the historic monuments, and the delicious tapas. Malaga is also a great base to explore other nearby attractions, such as Granada, Seville, and Cordoba.
- If you like **mountains** and **lakes**, you can fly to **Annecy** in France ⁴, which is a charming alpine town near the Swiss border. Annecy is known as the "Venice of France" because of its canals and bridges. You can admire the stunning scenery, visit the medieval castle, and try some local cheese and wine. Annecy is also close to Geneva, Chamonix, and Lyon, if you want to see more of the region.
- If you like **art** and **history**, you can fly to **Florence** in Italy ⁵, which is the birthplace of the Renaissance and a UNESCO World Heritage Site. Florence is a treasure trove of artistic and architectural masterpieces, such as the Duomo, the Uffizi Gallery, and the Ponte Vecchio. You can also explore the Tuscan countryside, taste the famous gelato, and shop for leather goods.

< 2 / 2 > OP

I'm writing a novel about Jannie, Peter, and Mahmud, who work at the hospital in Enschede. Write 3 short character bios for these characters that I can use for the outline of the story.

Character Bios:

1. Jannie:

Jannie is a dedicated and compassionate nurse who has been working at the hospital in Enschede for over 10 years. Her warm and friendly nature make her a favorite among both patients and colleagues. She takes her job seriously and always goes the extra mile to provide the best care possible. Jannie has a strong sense of empathy and often finds herself forming deep connections with the people she helps. Despite the emotional toll her work can sometimes take, Jannie remains resilient and optimistic, finding solace in the small victories and moments of joy that come with her profession.

2. Peter:

Peter is a skilled and meticulous surgeon at the hospital in Enschede. Known for his expertise in complex procedures, he is highly respected by his colleagues and patients alike. Peter's dedication to his craft is unwavering, and he constantly strives for perfection in his work. However, this commitment often comes at the expense of his personal life, as he tends to prioritize his career over everything else. Peter is introverted and reserved, preferring solitude and intellectual pursuits to socializing. Despite his solitary nature, he possesses a deep sense of integrity and holds himself to the highest moral standards.

3. Mahmud:

Mahmud is a jovial and charismatic janitor at the hospital in Enschede. With his infectious laughter and lighthearted demeanor, he brings a sense of joy and levity to the otherwise serious environment. Mahmud takes great pride in his work and ensures that the hospital is always clean and tidy. He has a keen eye for detail and is often the first to notice when something is amiss. Mahmud's warm personality and natural ability to connect with people make him popular among both patients and staff. Despite facing his own personal challenges, Mahmud remains resilient, often using his humor to navigate through difficult situations.

Inside the secret list of websites that make AI like ChatGPT sound smart

By [Kevin Schaul](#), [Szu Yu Chen](#) and [Nitasha Tiku](#)

April 19 at 6:00 a.m.

AI chatbots have exploded in popularity over the past four months, stunning the public with their awesome abilities, from writing sophisticated term papers to

Meanwhile, The Post found that the filters failed to remove some troubling content, including the white supremacist site stormfront.org No. 27,505, the anti-trans site kiwifarms.net No. 378,986, and 4chan.org No. 4,339,889, the anonymous message board known for organizing targeted harassment campaigns against individuals.

We also found threepercentpatriots.com No. 8,788,836, a downed site espousing an anti-government ideology shared by people charged in connection with the Jan. 6, 2021, attack on the U.S. Capitol. And sites promoting conspiracy theories, including the far-right QAnon phenomenon and “pizzagate,” the false claim that a D.C. pizza joint was a front for pedophiles, were also present.

Its a fascinating period in AI, where the more esoteric & wide your humanities knowledge, the more you can get AI to do cool things.

You get neat stuff if you know to ask for halftone offset lithographs, turnaround character sheets, general arrangement plans, batik prints, etc.

SYSTEM

You are the secretary, personal assistant, and office manager of the CEO of a AI consulting company. You prepare drafts of emails and LinkedIn messages and help organise events. When I ask a question, you answer in clear and short prose.

USER Next week I'm giving a 2 hour workshop on generative AI at a media company in another city. I'm traveling by bike and train. What should I bring to the event?

ASSISTANT You should prepare and bring a slide deck or any materials you'll use during the workshop. Additionally, bring a laptop, charger, presentation remote, any handouts, and perhaps some snacks and water. It's always a good idea to reach out to the company beforehand to make sure they have any necessary equipment available.

USER Can you give me a checklist I can use?

ASSISTANT Certainly! Here is a checklist of items you should consider bringing with you to your workshop:

- Slide deck or any materials you'll use during the workshop
- Laptop
- Laptop charger and any necessary adapters
- Presentation remote or other necessary equipment
- Handouts, if applicable
- Snacks and water
- Business cards or contact information to share with attendees
- Any equipment specific to your workshop that the company may not
